INTRODUCTION

Welcome to our Nostalgia Video Catalog for the collector. These programs are for collectors, not necessarily for the so so perfectionist. Our offerings come from a wide variety of sources and we try to find the best material to master from. Our sources vary widely, though a good percentage comes from 16mm film transfer. They are of course several titles that are below standard quality. But we do not offer any programs that we feel will impair the viewing of same films. We always try to please our collectors and if there is a certain problem brought to our attention we try to resolve in the best way possible.

If you don't see it on any of the following pages, then please feel free to send us your want lists. We are always, on a regular basis, acquiring new material, so, we could have a favorite title in stock or we could have access to it!!!

Good Hunting !!

All prices listed are firm unless otherwise so noted at an elsewhere location in this catalog. We use only the best name brand cassettes.

All of our recording is done at SP speed to insure the best possible picture and quality.
